	Examiner Kristen Mullen	Art Unit 3762	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I in the reply filed on 9/15/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 4-6 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 9/15/04.

Priority

3. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows:

This application is claiming the benefit of a prior filed nonprovisional application under 35 U.S.C. 120. Copendency between the current application and the prior application is required. The examiner requests that all references to the prior related application be deleted from the specification.

Claim Objections

4. Claim 1 is objected to because of the following informalities: in the clause "resetting an atrial chamber reset", the word "reset" should be deleted. Appropriate correction is required.
5. Claim 1 is objected to because of the following informalities: "said atrial test pulse" should be pluralized to agree with its prior usage.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Markowitz et al. (5,601,615).

Regarding claim 1, Markowitz et al shows a software program implemented in a medical device system, comprising means for detecting atrial capture, means for resetting an atrial chamber, means for instructing an atrial output circuitry in the medical device to emit atrial test pulses on a periodic basis; and means for determining a minimum magnitude of said atrial test pulse in cooperation with said means for detecting, said means for resetting and said means for Instructing (Col. 20, line 7-Col. 21, line 61; Figs 10a-10b).

With respect to claim 2, Markowitz et al. further shows the means for resetting includes means for confirming atrial capture (Col. 20, lines 63-64).

Regarding claim 3, Markowitz et al. further shows the means for confirming further includes means for identifying interruption of a stable sinus system (interruption of the stable sinus rhythm is when the atrial response occurs after the NRW window).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kristen Mullen whose telephone number is (571) 272-4944. The examiner can normally be reached on 10:30 am-6:30 pm.
